Fare Filing & Contract Loading

ati BUSINESS GROUP

Fare Filing & Contract Loading

Fare Filling and Contract Loading have been one of the core services ATI provide since 2004. ATI provides both air and land fare filling by teams with extensive travel related experience and expertise across multiple GDS & proprietary systems. Delivering exceptional quality in accuracy and coverage, our teams are supported by proprietary technology and quality assurance systems which enable operational efficiency and excellence.
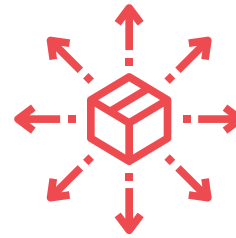

Why ATI?

>99%

Accuracy

Fare loading tools via API-XML schema

Distributed across multiple GDS

FULL COVERAGE

on Agency Debit Memos

ATI Business Group has long been a leader in business process outsourcing within the travel and aviation sector, serving clients in over 20 countries around the world. Focused on providing the best customer experience, ATI has developed several proprietary technology applications, backed with teams of industry experts to provide you an effective solution for sustainable efficiency and organisational growth.

Hear what our clients have to say

ATI has successfully implemented and managed multiple fare filing processes and has addressed various challenges in fare filing due to the complexity of fares for AirCalin.

Head of Pricing and Interline

AirCalin

Service Options

ATPCO Fare Filing

Our highly skilled team assists airline clients to file and redistribute published, negotiated and private fares in the Airline Tariff Publishing Company (ATPCO) system.
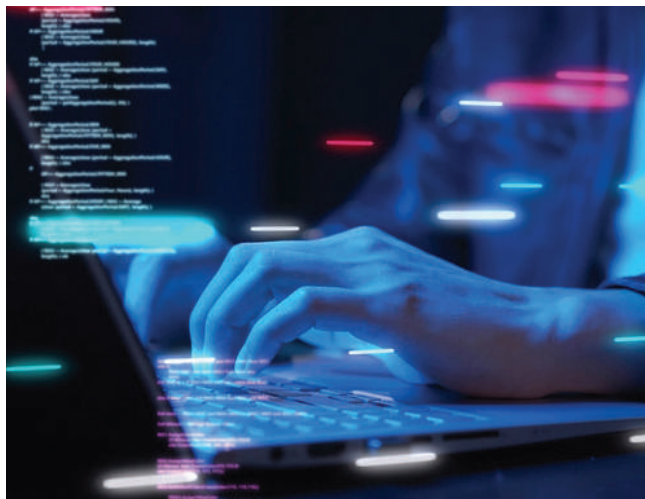

Multi GDS Fare Filing

Our web-based multi-GDS fare loading tool enables ATI to provide accurate and rapid loading of private fares for its clients. Having the right airfare at the right time is essential for any travel agency business. Additionally, ATI provides a unique benefit with full insurance coverage on Agency Debit Memos.

Hotel & Tour Loading

We help you track and account hotel commissions owed to your business from any hotel around the world that you have done business with. We provide a cost-effective and efficient service due to our scale and automated processes.

Service Options

Cruise Loading

Our service will help you with any contract and content loading needs for cruise package inventory. With ATI proprietary technology and automation tools, we manage to increase efficiency and reduce high-rated risk of errors from the usual manual processes.

Inventory / Room Management

We help to monitor and manage allotted rooms availability from suppliers based on the agreed contracts by analysing hotel room inventory and rates on a regular basis. We make adjustments in anticipation of peaks in demand.
